# Sand Castle

Students will construct a sand castle.

## Materials:

Cardboard  
Small cups  
Small boxes  
Egg cartons  
Sand  
Tape  
Glue  
Shells  
Small flag

## Directions:

1. Students will construct the skeleton of a sand castle, using cups, boxes, and egg cartons, on the cardboard base.
2. Make sure that the castle is taped together and secured to cardboard base.
3. Mix equal parts sand and glue (2 cups of sand and 2 cups of glue).
4. Cover the structure with the sand and glue mixture. Decorate with shells and flag.
5. Let dry.
